How to lower the cost of a new system. Rebates can take thousands off a new heat pump, but only if the equipment qualifies and the paperwork is done right.

Guide 4
Rebates

Rebates for every utility in our area, in one place.

Find your electric or gas utility below. Most programs pay per ton of equipment: for a 3-ton heat pump that ranges from about $500 to $3,750, depending on the utility. On one Los Feliz project the homeowner qualified for $6,500: $5,500 from LADWP and $1,000 from Daikin.

UTILITY	HEAT PUMP (DUCTED)	DUCTLESS MINI-SPLIT	ELECTRIC PANEL	HEAT PUMP WATER HEATER	SMART THERMOSTAT
Glendale Water & Power	**$1,000/ton**, up to $5,000, replacing gas heat $500/ton replacing a heat pump	See heat pump	**$1,000**	**$4,000** limited time	—
LADWP	**$1,000–$1,250/ton** by efficiency tier	**$1,500–$2,500/ton** by efficiency tier	—	**$1,500–$2,500**	**up to $75**
Burbank Water and Power	**$1,000/ton**, up to $2,500, replacing gas heat up to $5,000 income-qualified	**$1,000/ton**, up to $2,500, replacing gas heat	**$750**	**$1,500**	**up to $75**
Pasadena Water & Power	**$170/ton** bonuses for Pasadena purchase and income-qualified	**$170/ton**	**$1,000** +$500 income-qualified	**$500**	**$50**
Southern California Edison	**$667/ton**, up to 5 tons designated communities, replacing older AC and gas furnace	**$600–$1,145/ton** replacing a gas wall furnace	—	**$500–$1,350**	—
SoCalGas	**$1.40–$25 per kBtuh** for a high-efficiency gas furnace (ENERGY STAR, 92% AFUE or higher), one per household				
Daikin instant rebate	**Daikin FIT: $500–$1,000** per system · **Daikin ductless: $450–$750**		Purchases through **Dec 31, 2026** (ductless installed by Jan 31, 2027). Taken off your invoice. Conditions apply.		

As listed on our rebates page in October 2026. Amounts depend on equipment, efficiency and conditions of each program, and programs change. We confirm what applies to your home before you sign. Financing: GoGreen Home and GoodLeap, subject to lender approval.

ASK ANY CONTRACTOR

1. Which rebates apply to my home, and for how much?
2. Does the equipment in your quote qualify?
3. Who prepares the rebate paperwork?

HOW WE DO IT

- ✓ We check the programs for your address and equipment
- ✓ We prepare the documents; the utility confirms the amount
- ✓ Daikin rebates come off your invoice

Which rebates fit your home?

Call us and we'll confirm the programs before you sign.
